AVAILABILITY TO COME TO UNSINKABLE DOGS

We are open by appointment only, usually 7 days and evenings a week

Please briefly tell us the kind of time frame you need for your trips to Unsinkable Dogs. The more info you give us, the easier it is for us to find a compatible time to fit you with the right swim coach.

The following questions will help us find the right person to schedule you with:

Just like any of us the start an exercise program, doing the activity more than once a week will give us better benefits sooner. Can you come twice or 3 times a week?

Do you want to be scheduled with the TTouch, practitioner if she is available [\$10. Additional charge]

AGREEMENT WITH TERMS OF USE

It is essential that you read the following 5 statements, initial each, and sign your name.

Please ask if you have questions

I understand that my dog needs to be clean and well-brushed prior to swimming at Unsinkable Dogs. A good brushing done two or three days prior to swimming will help minimize clogging of drains and filters, no matter what length my dog’s hair is.

I understand it will be far easier and safer for my dog as well as the person working with my dog if I keep my dog’s nails trimmed regularly, including filing or using a grinder to smooth off rough edges if trimmed the day of the swim. If you need help with this, please ask us. There is a local pet store that clips for free without an appointment and will also drummel for \$10.

I understand that I should not feed my dog a meal within 4 hours of swimming at Unsinkable Dogs, and that this helps prevent unwanted deposits in the water from either end of my dog!

A understand that a bowel accident in the pool will close the pool requiring cancelation of appointments for at least part of the day. This is an unlikely event with most dogs. It usually occurs with elderly dogs, dogs with neurological problems, and occasionally when owners are not monitoring potty breaks and are un aware of their dogs bowel habits. If you are concerned about this possibility with your dog, the staff at UD can give you advice on prevention and management. You can also ask your Veterinarian to show you how to help your dog evacuate his/her bowels. Diapers can be purchased on line. Ask us where or check the website for a link. If you are still worried about this possibility, scheduling at the end of the day will help reduce the cost to UD if an accident were to occur. On rare occasions, we may ask you to help defray the cost if there have been multiple accidents from your dog that has affected our revenue.

I understand that even waterproof flea treatments are not waterproof and that 7 days must elapse between any topical flea treatment and taking my dog to swim at Unsinkable Dogs. Some of us are now using Comfortis, and monthly pill that doesn’t leave leachable residue.
